JL- I have andhave listened to Lane's Flynt/Freep press conference of 2/6/78.

There is no doubt of plagiarism and it is not limited to from my work ar the "missle" receipt (which he claims to have had for only a year).

He got a tape or had Gandolfo read him a transcript of what Richard A. Sprague said on Gandolfo's show. At this press conference he claims to have conducted a personal survey of the first 14 people hired by the committee and separatesSprague from the other 13. He then presents what Sprague said on Gandolfo's show as what Sprague reported to him. The condition under which Gandolfo gave him Sprague's words is that he and his show would be credited. (Lane later told him he had forgottne.)

I am prett sure Lane said there would be an add like the JFK award ad on King. I know he said there would be a special Freep ing edition.
